#### **Significant Incidents/Matters:**

Problems with the primary Photo-Finish system persist. In the fifth race, a stakes with 10 entrants, we had to rely on the backup system to determine the correct order. This has been an ongoing problem. Two weeks ago, races were almost cancelled due to the malfunction of the TP primary photo finish equipment. It compels the Division to have this most important issue corrected before an unfortunate error occurs.

Claims clerk Chris Thorton, did not see the slip when he checked therefore no claim was executed at that time. Having won the race race, the horse was sent to the State detention barn to be tested, it was at that time the claim slip was discovered.
